Product Description

Features

Choice of frames for comfort and fewer red marks

Patients can choose between a fabric or gel frame for their Nuance pillow's mask. The gel-padded frame with non-slip headgear holds the mask in place and reduces the need for re-adjustment. Great for patients who like a high-performance look. The fabric frame gives a softer experience, for fewer red marks and better sleep.

No-slip headgear stays in place throughout the night

No-slip headgear stays in place throughout the night

Gel pillows provide greater comfort and seal

The gel pillows conform to different size nostrils and reduce nasal irritation. They're not just more comfortable, they also provide a great seal.

Light-weight, flexible tubing for less pull on the mask
